

Garant**GARANT Master TM solid carbide single profile thread mill 3×D, AlTiN, M: M6****Order data**

Order number	139625 M6
GTIN	4067263139980
Item class	11D

Description**Version:**

Solid carbide thread milling cutters **with irregular cutting edge spacing and an increased number of cutting edges**. Due to the **irregular cutting edge spacing** they achieve very **smooth cutting action** and **long tool life**. **Newly developed universal geometry** and **high-performance coating** for use across a wide spectrum of materials.

- **Significantly reduced vibration due to irregular cutting edge spacing.**
- **Increased number of cutting edges.**
- **Latest-generation AlTiN-based HIPIMS coating.**
- **Corrected thread profile for avoidance of profile distortions.**

Axial cooling grooves on the shank.

Advantage:

Significantly **less radial pressure** than with multi-tooth thread mills. The tool can also be used for additional thread profiles (UN; UN-LH) **for various pitches and diameters**. See overview for possible threads.

Note:

HB and HE shanks are available at the same price as HA.

HB shank: order with No. **139625 + 129100 HB**.

HE shank: order with No. **139625 + 129100 HE**.
