

LED torches, Manufacturer's designation: P5.2

Order data

Order number	081485 P5.2
GTIN	
Item class	04B

Description

Version:

LED lenses are amongst the technology leaders for LED torches. Within the **splash-proof aluminium housing**, all the contacts are gold-plated, **high-quality lenses** gather the light uniformly and without losses. All these high-class torches incorporate the patented **Advanced Focus System**.

High-performance line of LED LENSES for general- purpose use. Drop tested from a 1 m height.

- **Advanced Focus System (AFS)**

The Advanced Focus System is a combination of lens and reflector, thus incorporating the advantages of both systems. The result is an outstanding concentration of light in focus, together with a largely homogeneous unfocussed light beam. This makes the AFS one of the best focussing systems in the world for LED lamps.

- **Rapid Focus**

Conventional focussing systems with twist knobs must be operated manually with both hands. Rapid Focus, on the other hand, allows quick adjustment of the light beam with only one hand.

High-performance line of LED LENSES for general- purpose use. Drop tested from 2 m height.

Supplied with:

Including battery No. 081557 LR6.

Note:

In general, manufacturer provides a warranty on this product of **five years** (seven years with online registration).

Manufacturer's designation: P5.2

Illumination step 1: 140 lm

Working life: 4 h

Illumination range: 120 m

Advanced Focus System (AFS): true

Battery type: LR6
