

LOCTITE**Retaining compound, 50 ml, Manufacturer ID: 603**

Order data

Order number	083341 603
GTIN	5010266168968
Item class	04L

Description

Version:

When using joining as a production technique, two or more components are connected through positive contact. When using the adhesive, the full jointing face is used to establish a solid connection. It allows for high force transfer and dynamic loads (high shear strength).

Application:

For small gaps, even where some slight oiliness is present. Ideal for securing bearings.

Note:

Surfaces should first be treated with general-purpose cleaner No. 083391 and No. 083392.

Technical description

Manufacturer's designation	603
Labelling of hazardous substances	GHS05: Corrosive
Labelling of hazardous substances	GHS07 caution
Product name attribute	50 ml
Type of product	Jointing product

Accessories
