

Cutting tool for plastic cable ties, Manufacturer's designation: EVOCUT

Order data

Order number	729963 EVOCUT
GTIN	4031026737591
Item class	76C

Description

Version:

The cutting tool consists of a light-weight plastic housing and an ergonomic non-slip handle for a comfortable and secure grip. With attachment eye for attaching a fall protection. The tool includes eight interchangeable end caps for plastic cable ties of different widths and thicknesses. Both the band and the head of the cable tie as well as KR series cable ties can be cut.

Advantage:

The cable tie can be split at any point of the bundled cables without damaging the insulation or individual conductors.

Application:

For flexible power cables, bundles and power/water lines as well as rigid bundled cables – wherever quality and effectiveness play an important role, especially in delicate cable harnesses.
