

Garant**Ceramic grinding bodies Triangular (oblique), coarse, Type: 1010TA****Order data**

Order number	501515 1010TA
GTIN	4069515040044
Item class	58F

Description**Version:**

Ceramic grinding bodies (aluminium oxide abrasive grit bonded in ceramic) are the **most widely used mass finishing tools** and are **suitable for universal use**. **Very dense** and **excellent abrasive effect**.

High-performance version for **fast machining**. Low self-abrasion, long service life.

Application:

For **fast deburring and rounding** of edges and as a **preliminary stage for polishing steel, stainless steel** and other **steel alloys**. Also suitable for rough machining on plastic and non-ferrous metals, with the risk that the grinding bodies clog faster, which reduces their abrasive effect.

The **triangular (oblique)** shape is the most universal shape.

Technical description

Shape description	Triangular (oblique)
Series	GMT
Grit designation	coarse

Data sheet

Length	10 mm
Height	10 mm
Grinding media	Standard aluminium oxide (A)
Grinding medium code	A
Product name attribute	coarse
Contents	3 kg
Type of product	Polishing head

User data

	Suitability	V _c	ISO code
Alu Mg	suitable only under restricted conditions		
Steel < 900 N/mm ²	suitable		
Steel < 1400 N/mm ²	suitable		
Steel < 55 HRC	suitable		
Steel < 60 HRC	suitable		
Steel < 67 HRC	suitable		
Carbide (HM)	suitable		
INOX	suitable		
Ti	suitable		
GG(G)	suitable		
CuZn	suitable only under restricted conditions
