Description
Version:

Installation set for installing bearings without damaging axles, bearing housings or sealing rings. Light but very robust aluminium impact sleeves in combination with 33 striking rings made of impact-resistant polyoxymethylene for bearing external Ø from 26 - 110 mm and internal Ø from 10 - 50 mm. Supplied with dead-blow-absorbing soft-faced hammer in sturdy plastic L-Boxx® system case.

Application:

Quick, precise, and safe installation of (roller) bearings thanks to **even application of force** on the bearing. Also suitable for fitting of bushes, sealing rings, and pulleys.
