ESD swivel work chair TEXON, fabric cushion, with castors, low, Seat colour: ESD

Order data

Order number	972711 ESD
GTIN	4099883003884
Item class	96J

Description

Version:

TEXON swivel work chair with interchangeable cushion system. The cushion elements are simply mounted and fixed with a click. Encapsulated mechanism thanks to Clean Cover; closed, smooth surfaces. Star base made of aluminium, anthracite. With ergonomic adjustment options: Seat height adjustment, Auto-Motion technology (backrest and seat move along with the body), Flex-Back (backrest can be locked in three different positions), anti-shock protection (backrest cannot shoot forwards unintentionally after the lock is released). Ergonomically shaped backrest. Seat with integrated pelvic support and rounded front edge of the seat.

Soft, load-responsive braked safety double castors for hard floors.

Seat and backrest made of fabric cushion. Cushion is breathable, has a particularly soft surface, is extremely resilient and can be cleaned with standard cushion cleaning agents. Discharge across all components.

Standard:

EN 61340-5-1

Technical description
