Swivel work chair TEXON, fabric cushion, with castors, low, Seat colour: BLACK

Order data

Order number	965477 BLACK
GTIN	4099883003600
Item class	96J

Description

Version:

TEXON swivel work chair with interchangeable cushion system. The cushion elements are simply mounted and fixed with a click. Encapsulated mechanism thanks to Clean Cover; closed, smooth surfaces. Star base made of aluminium, black-grey. With ergonomic adjustment options: Seat height adjustment, Auto-Motion technology (backrest and seat move along with the body), Flex-Back (backrest can be locked in three different positions), anti-shock protection (backrest cannot shoot forwards unintentionally after the lock is released). Ergonomically shaped backrest. Seat with integrated pelvic support and rounded front edge of the seat.

Soft, load-responsive braked safety double castors for hard floors.

Seat and backrest with Duotec fabric cushion. Fabric cushion is particularly suitable for clean environments. The soft surface is breathable and durable. Easy to clean with standard cushion cleaning agents.

Standard:

DIN 68877
