

Polarshine liquid surface polishing compound, Type: 20

Order data

Order number	552430 20
GTIN	
Item class	56M

Description

Version:

Polarshine 20 is a medium-coarse polishing compound for removing scratches and working on fresh and soft clear coats. The water-based polishing solution provides an excellent finish and leaves behind a high-gloss surface. In order to obtain a hologram-free, high-gloss surface, especially on dark colours, it is recommended to use Polarshine 5 as the last step in the polishing process.
