

Fastening screw for hard and soft top jaws, for chuck type: 160/200

Order data

Order number	313420 160/200
GTIN	4019208055602
Item class	33R

Description

Application:

As the jaws can be changed or adjusted to the required diameter **in just a few seconds**, it is useful to have several jaw sets on hand ready for use at the machine. **This minimises set-up times.** The jaw units consist for example of several sets of base jaws with soft top jaws, which can be machined out to the required diameters. This rationalisation method is not only necessary for NC machines but also important for every lathe type.

Suitable for:

Top jaws No. 313210, 313250, 313220, 313300 and 313310.

Technical description

Thread	M8x1
for chuck type	160 / 200
Length	20 mm
suitable for colour code	Schunk self-centring chucks and jaws
suitable for colour code	Röhm self-centring chucks and jaws
Type of product	Screw
