

Micromag magnetic filter, maximum magnetic trapping capability: 4kg

Order data

Order number	084362 4
GTIN	2050001738530
Item class	08Q

Description

Version:

Magnetic filter for installation in the coolant and lubricant circuit of machine tools and systems.

Application:

For reliable and environmentally-friendly separation of magnetically-conductive materials in coolant, lubricant, and heating circuits, e. g. in machine tools, recycling systems, and hydraulic systems. The contaminated core can be cleaned in seconds using a special scraper No. 084363. Filter material disposal is no longer required.

Filter material disposal is no longer required. When the magnet is full an overflow valve opens to ensure continued flow – the flow cannot be blocked.

Technical description

BSP connection thread	1.1/2 in
maximum magnetic trapping capability	4 kg
Weight	9.5 kg
Manufacturer's designation	MM20
External height	605 mm

External Ø	135 mm
Type of product	Filter

Accessories

Micromag scraper	084363
