| Order number | 375100 14 |
| GTIN | 4020772073107 |
| Item class | 35A |

Description

Version:

Particularly flat design (see table: height above upper table edge). By grinding down the clamp, an even lower clamping height can be achieved and the depth tolerance of the T-slot can be adjusted. The component is firmly pressed against the table due to the wedge effect of the clamp.

Application:

For lateral clamping of particularly flat components directly on the machine table.

Material:

Hardened steel, burnished finish.

Supplied with:

Hexagon key L-wrench ISO 2936 C.

Note:

Only supplied in pairs!

Technical description
