

Garant**ZeroClamp connection block, Type: 12805****Order data**

Order number	360017 12805
GTIN	4045197416131
Item class	310

Description**Version:**

The zero point clamping of the GARANT ZeroClamp system is an important function for modern production systems, especially in automated production. Thanks to a special contact interface, it ensures precise and reliable zero point repetition accuracy. The pneumatic clamping force of the system holds workpieces securely in the desired position, making it possible to change workpieces quickly and accurately without repositioning. This reduces the set-up effort and increases productivity. The zero point clamping of the GARANT ZeroClamp system is indispensable for efficient production processes. Find out more about the innovative technology from GARANT ZeroClamp and optimise your production.

With one connection thread G 1/4 inch for connecting the compressed air. The connection block has a manual valve for releasing, clamping, and also blowing out.

Technical description

Series	ZeroClamp
Type of product	Connection block
