| Order number | 375375 22 |
| GTIN | 4020772071882 |
| Item class | 35A |

Description**Version:**

Precision ground all round, resulting in quick alignment times for appliances, vices etc., which are to be aligned parallel to the table slots of machine tools. A dial indicator is thus no longer required.

Application:

These loose tenons are inserted sideways into the slots after rough alignment of the fixture.

When transporting the fixture, there are then no tenons protruding underneath and the table cannot be damaged. 2 pieces are sufficient per machine, or 4 pieces for a double set-up.

Standard:

DIN 6323

Material:

Steel C 15, case-hardened.
