

Loose tenon ground for adjustment, Slot size b₁ of the machine: 14mm

Order data

Order number	375375 14
GTIN	4020772071844
Item class	35A

Description

Version:

Precision ground all round, resulting in quick alignment times for appliances, vices etc., which are to be aligned parallel to the table slots of machine tools. A dial indicator is thus no longer required.

Application:

These loose tenons are inserted sideways into the slots after rough alignment of the fixture.

When transporting the fixture, there are then no tenons protruding underneath and the table cannot be damaged. 2 pieces are sufficient per machine, or 4 pieces for a double set-up.

Standard:

DIN 6323

Material:

Steel C 15, case-hardened.
