Mantis® Elite stereo viewing system with universal stand, Type: ED

Order data

Order number	491901 ED
GTIN	2050001956873
Item class	49B

Description

Version:
Clear, distortion-free, three-dimensional magnification displaying correct colours and positions using patented process. Viewing screen instead of eyepieces makes for non-fatiguing ergonomic inspection as if using a magnifying glass with a large field of view. No need for the eyes to refocus when looking at the component after viewing the screen.
Elite projection head with **"Quick Change" lens changer** for 2 lenses and excellent optical performance. **With integral USB 2.0 camera** and 2D measurement software for additional viewing on the screen, archiving, and simple measurement tasks.
Supplied with:
Including dust cover.
With mains adapter (110 V / 60 Hz to 230 V / 50 Hz), **without** lenses. **Without** viewing screen (PC, laptop) including Vifox software.
Optional extras:
Lens No. 491905.
