### Description

#### Version:

The Aura™ 9300 + series is characterised by new filter technology with **hardly any perceptible breathing resistance**. The **three-part design** ensures a pleasant wearing sensation and good visibility. The sealing points on the upper side of the mask reduce the occurrence of condensation on glasses. Because of the **flexible nose clip** and the **movable chin strap** the mask can be easily positioned and does not slip even when the user is talking. Due to the fold-away technology and hygienic individual packaging the mask can also be carried very easily. With **exhalation valve**.
