

PUK®

General purpose hacksaw "PUK" with general-purpose blade (310) Adjustable handle

Order data

Order number	581200
GTIN	4010124300302
Item class	58Z

Description

Version:

Small and handy, good cutting performance.

With adjustable natural varnished wooden handle. Can be clamped at any point on the frame. Frame solid nickel-plated steel square bar.

The bow saw with its prominent bow frame is characterised by the u-shaped bow which tensions the saw blades. The limitation in depth of cut of hand bow saws is presented by the distance from the blade to the bow. This frame shape permits the use of particularly slim saw blades, which in other frame shapes would be liable to buckle when subjected to cutting movements with the force in alternate senses or other than in the pulling sense. Thanks to the thin hacksaw blades the metal cutting effort required is reduced, because of the small cutting width. Thus this type of saw is the classic standard for hacksaw work in metalworking.

Supplied with:

Including **general-purpose saw blade** for metal, aluminium, wood and plastic. Blade length 150 mm.

Technical description

Overall length	310 mm
Blade length	150 mm
Handle position adjustable	yes
fitted saw blade	General-purpose saw blade
Type of product	Coping saw
