

FlexiVision 100 with FlexiScope 3 camera hand grip, Type: EXTENDED

Order data

Order number	492864 EXTENDED
GTIN	2050001957054
Item class	49C

Description

Version:

FlexiVision 100 is a base camera unit for industrial applications. With its broad range of functions, additional image information can be obtained during the inspection, making the inspection process more efficient and more reliable. Direct image output to HD monitor (no PC necessary). The images can be saved to a USB stick. The FlexiScope 3 camera hand grip and HD camera head attachments can be combined.

With FlexiScope 3 camera hand grip for use on all FlexiScope 2 and 3 probes. LED light source in the handle.

Advantage:

- **Full HD resolution (1920×1080)**
- **image documentation**

With innovative video algorithms for optical emphasis of features (selective colour adjustment). Optical filters against smokes and fumes for inspection of current exhaust systems.

Supplied with:

Base camera unit FlexiVision 100, FlexiScope 3 camera hand grip including DVI cable, USB memory stick, power adapter, cleaning material and transport case.

Optional extras:

FlexiScope 2 and 3 probes 492876- 492889.
