

FlexiVision 100 with HD camera head for endoscopes, with DIN lens, Type: BASIC

Order data

Order number	492866 BASIC
GTIN	
Item class	49C

Description

Version:

FlexiVision 100 is a base camera unit for industrial applications. With its broad range of functions, additional image information can be obtained during the inspection, making the inspection process more efficient and more reliable. Direct image output to HD monitor (no PC necessary). The images can be saved to a USB stick. The FlexiScope 3 camera hand grip and HD camera head attachments can be combined.

With HD camera head for use on **all endoscopes**, with DIN lens. A separate light source is required.

Advantage:

- **Full HD resolution (1920×1080)**
- **Image documentation**

Supplied with:

Base camera unit FlexiVision 100, HD camera head including DVI cable, USB memory stick, power adapter, cleaning material and transport case.

Optional extras:

Industrial endoscopes No. 492734 - 492758, light source No. 492846 or No. 492860.
