Handle of transparent impact resistant plastic. **Blade** of PB Swiss Tools special alloy combines maximum hardness with exceptional toughness. Surface nickel-plated and chrome-plated.

Advantage:

Greatly reduced "cam-out-effect" due to exceptionally precise tips, e.g. plane parallel slot-head tips and accurately milled cross-head tips. The flip-over handle permits 2 functions:

- **Quick rotation (in the upright position).**
- **Power tightening (in the 90° angle position).**
