

Shank with magnet / quick-change coupling BiTorsion, Hexagon shank: 6,3

Order data

Order number	675030 6,3
GTIN	4013288095633
Item class	63H

Description

Version:

Two-piece, i.e. shank and bit are separate. This means that in case of wear, only the relevant bit has to be replaced.

“Rapidaptor” BiTorsion adapter with automatic quick-change coupling and magnet for C 6.3 and E 6.3 bits. The integral precisely calculated torsion zone significantly reduces the load on the bits and therefore considerably increases their tool life. For use in combination with **BiTorsion** bits No. 675510 – 675550.

- **Holder for C 6.3 and E 6.3 bits.**
- **The sleeve clicks into the open position. It locks automatically when a bit is inserted.**
- **Even the smallest bits can be removed without problems, since the sleeve lifts the bit away from the magnet.**

Quick change of bits, always one-handed.

Note:

Rapidaptor free-running coupling shank available from our eShop (No. 675035 size 6.3F).

Technical description

overall length	75 mm
Hexagon shank	6.3 mm
Machine drive	E 6.3 (1/4 inch)
Hexagon drive	D 6.3 (1/4 inch)
Manufacturer's designation	897/4 R
suitable for machine	yes

Type of product

Bit holder
