

## Universal deburrer handle with ceramic blade, Cutting angle: 65°

### Order data

Order number	838150 65
GTIN	7290003235612
Item class	83G

### Description

#### Version:

Handy 2-component handle with unique mounting for the ceramic blades. In conventional deburrers the blade rotates; here the blade mounting rotates. The result is smoother working, which is easier on the blade.

#### Application:

Deburring holes and a wide variety of contours. Highly suitable not only **for** soft materials such as aluminium and plastics but also for **very abrasive plastics** such as fibreglass. Extremely wear-resistant: approx. **20 times the working life** of a HSS blade (when deburring plastics).

### Technical description

Cutting angle	65 degrees
Type of product	Deburrers

### Accessories

Ceramic deburrer blade Cutting angle 65°	838160 65
