

Half-face mask Series 7500, Size: M

Order data

Order number	097231 M
GTIN	4046719790678
Item class	04M

Description

Version:

The sturdy and comfortable half-face mask bodies from the 7500 series are made from silicone and therefore skin-compatible. They have a drop-down strap, so that during short work breaks they can be worn around the neck. A double filter system permits reduced resistance to respiration with and ensures good weight distribution. The resilient and adjustable headband system offers a very high degree of safety and comfort. The structured face seal provides a perfect seal.

Standard:

EN 140
