

**Half-face mask Series 6000, Size: L****Order data**

Order number	097235 L
GTIN	4046719375943
Item class	04M

Description**Version:**

Half-face masks of series 6000 with lightweight and adjustable mask body for non-fatiguing working. The **double filter system** ensures reduced respiratory resistance, free field of view and good weight distribution. Separately available comprehensive range of filters ensures versatility across many applications. The filter is very easy to exchange using the bayonet click system. In addition, the low-maintenance mask is impressively cost-effective and easy to use. The mask is available in two sizes – size M and size L.

Standard:

EN 140

Colour code for suitable accessories: 3M™ bayonet

Filter connection: 3M™ bayonet system

Weight: 82 g

Manufacturer's designation: 6300L
