

Ear defenders Peltor™ X series helmet version, Type: X5

Order data

Order number	097756 X5
GTIN	4046719708130
Item class	04M

Description

Version:

3M™ Peltor™ ear protectors **X series** provide reliable protection against noise and offer good ergonomics, aesthetics and modern design. Despite the slim design, the shell-type ear protectors offer maximum noise attenuation. The light-weight double-layer shells offer good comfort and have an **extremely long working life**.

The **helmet version** of the X-series has the same shell characteristics as the version with a headband. With just a few movements of the hand can easily be mounted on a helmet with 30 mm Euro-slot socket. This uses the same colour coding as for the X series with headband application. SNR = 36 dB (H = 36 dB, M = 34 dB, L = 26 dB).

Note:

Suitable helmets are listed under No. 097815 (3M), No. 097802 (Schuberth).
Hygiene kits are listed under No. 097764.
