

## Height safety device FALCON steel rope, Wire cable length: 10 m

### Order data

Order number	098160 10
GTIN	3660681030528
Item class	09A

### Description

**Version:**

**Falcon.** Rugged and impact-resistant composite housing. **Quick-response braking system.** Can be used horizontally and vertically. With swivel and automatic carabiner. With fall indicator. Galvanised 10 m wire rope.

**Standard:**

EN 360

**Note:**

For products that are predominantly of metal there is no restriction on the service life. The precondition for this is that an annual test is performed by a specialist (visual inspection). This applies above all to carabiners, since height security harnesses are also subject to the annual test / visual inspection.

Length: 10 m

### Technical description

Manufacturer's designation	Falcon SRL MP
