### **Description**

#### **Version:**

Suitable for all popular magnetic core drilling machines. Very good cutting properties due to optimised cutting edge geometry. Easy to regrind. With Weldon shank -  $\varnothing$  19 mm.

**HSS with special TiAIN coating** for improved cutting characteristics (prevents edge build-up). **Application:** 

On mobile magnetic drilling machines or stationary pillar drilling machines to produce large holes in steel construction. The core drill cuts only a thin material ring. The drilled core is ejected by a spring loaded ejector pin.

### **Supplied with:**

Without ejector pin.

#### Note:

For the lubrication of core drills, we recommend high performance cutting oil (see No. 084210).
