Classe de artigo	63H

Descrição

Modelo:

The ultra-compact and lightweight bike tool with two 4-way bits and three tyre levers. Four different screw profiles are operated with just one bit. Significant weight saving of more than 50 %. Due to its compact size, the Bicycle Set 15 is ideally suited for use on the go. The small drives are spring-loaded, which is what enables the large profiles to be accessed and used. The bit has a 1/4 inch hexagon drive (Wera connection series 1) and is therefore also compatible using e.g. bit ratchets and bits holders with Rapidaptor. Tyre lever 9504 has a 1/4 inch holder for the use of a 1/4 inch bit. If both 9504 tyre levers are fitted on top of each other, you can insert a 4-in-1 bit, which turns it into screwdriver. Tyre lever 9505 functions both as a valve extractor and as a bleeding device. Tyre lever and 4-in-1 bits can be put together, so everything is compact and nothing can get lost.

Dimensions: 140×70×25 mm

Descrição técnica

Designação do fabricante	Bicycle Set 15
Número de peças	5
Perfil de saída	Chave de parafusos para parafusos TORX®

Perfil de saída	Chave de parafusos sextavada
Tipo de produto	Conjunto de ferramentas
