Popis

Prevedenie:

Heat and flame-resistant clothing made of durable and supple soft leather in combination with flame-retardant fabric. Electrically insulated press studs and fire-resistant hook and loop fasteners. The clothes protect against flames, splashes of molten material and radiated heat during welding, grinding or burning.

Welder's protective jacket with stand-up collar for protection against weld spatter.

- **Double leather reinforcement on the front snap fastener strip.**
- **Spacious leather inside pocket.**
- **Neck and shoulder lining made of flame-resistant cotton.**

Norma:

EN ISO 11611:2015 Klasse 2 A1 + A2
